August 13, 2020

To EOC Students and Families:

On August 12, the school adopted the mitigation plan that ensures students can return safely to school. Using the guidelines published by Arizona Department of Health Services are on August 5, 2020, the school will use the following benchmarks in considering offering a hybrid learning environment that consist of in-person service and distance learning.

	Benchmark for Community Readiness for Hybrid Learning	Current Level
Cases	Two consecutive week decline in cases or a positive rate of 100 cases per 100,000 population	Three week decline – Benchmark met
Percent Positivity	Two consecutive weeks with percent positivity below 7%	Currently at 16.9% - Benchmark not met
Covid-like Illness Reported at Regional Hospitals	Two consecutive weeks with hospital visits for COVID-like illnesses in the region below 10%	Two week decline and illnesses below 10%- Benchmark met.

The school must also consider information provided by Yuma County Department of Health Services.

As such, the school will remain in a distance mode of learning until all 3 benchmarks and our local health department determines it is safe to move into a hybrid environment. Students that do not have access to technology, under the age of 18 and do not have place to go during the day due to lack home guidance, or who are experiencing significant difficulties with a distance learning platform may receive in-person instruction at the school as long as the school and students are abiding by the protocols established in the plan to re-enter into a hybrid setting.

Information regarding the current benchmarks can be found at: <https://www.azdhs.gov/>

The school's plan to reopen and re-enter can be found at: <http://chs.ypic.com/>

At this time students should be returning work if they have not been submitting classwork through Google Classroom or email. Teacher's have the next segments of work posted and students may pick up work at the same time they drop off work for grading.

Below you can find the schedule the school will stay on until a hybrid option is feasible:
